

REAL-TIME VALUE ADDED TAX (RTVAT)

FREQUENTLY ASKED QUESTIONS (FAQ)

Stakeholders Information Guide

Introduction

The Real-Time Value Added Tax (RTVAT) Framework enables the Ghana Revenue Authority (GRA) to collect VAT on qualifying cross-border digital services at the point of payment. RTVAT is not a new tax and does not change how customers make their payments. The applicable VAT is included in the payment and remitted to GRA when the VAT is deducted.

These FAQs provides simple and practical information and are designed to promote clear, consistent and transparent communication among customers, merchants, financial institutions and other stakeholders.

1. What is Real-Time Value Added Tax (RTVAT)?

RTVAT is the VAT collected at the point of payment on qualifying cross-border digital service transactions and remitted to GRA.

2. What is RTVAT Framework?

It's a mechanism used by GRA to identify, monitor and collect VAT using a system called Sentinal.

3. What is a cross-border digital service?

A cross-border digital service is a service supplied electronically by merchants or businesses outside Ghana.

4. What qualifies as a cross-border digital service under RTVAT;

- a. Online subscriptions and streaming services such as Netflix, HBO, Apple Tv, Amazon Prime
- b. Cloud services such as Microsoft Azure, Google Cloud
- c. Online gaming such PlayStation Plus, Xbox Game Pass, Apple Arcade
- d. Online market places such as AliExpress

5. Is RTVAT a new tax?

No. RTVAT is not a new tax.

6. Why is RTVAT being introduced?

It is to make VAT collection on qualifying digital transactions more timely, accurate and transparent.

7. Do customers need to do anything differently with RTVAT?

No. Customers can continue to pay and enjoy their everyday digital services.

8. Will the customer be notified when the VAT is deducted?

Yes. The customer will be notified via SMS or email

9. What VAT rate applies?

A combined rate of 20% is applicable comprising 15% VAT plus 5% GETFund and NHIL.

10. How is the VAT collected?

The VAT is collected through the payment platforms from which the payment is made.

11. Which payment methods are in scope for RTVAT?

Payments made using Ghana-issued debit/credit cards, mobile money accounts or digital wallets are covered.

12. What should a customer do if they are wrongly charged VAT?

If the customer does not receive the refund amount automatically, they will have to notify the bank or the Electronic Money Issuer (EMI) from which the payment was made.

13. What are the conditions that need to be satisfied before a transaction can fall under RTVAT? The conditions are as follows:

- a. where the payment instrument is issued in Ghana
- b. the merchant is non-resident
- c. the service is supplied electronically

14. Which merchants are in scope?

Non-resident suppliers of digital services who are subject to VAT — this includes both Digital Service Providers already registered with GRA and those not yet registered.

15. What are the new obligations of a registered Digital Service Provider?

- They are to display prices exclusive of VAT
- Let customers know VAT applies at the point of payment
- VAT will be automatically charged at the point of payment

16. What are the obligations of unregistered Digital Service Providers on the supply of services?

Unregistered Digital Service Provider are required to register with GRA

17. If VAT is already collected in real time, do I still need to file VAT returns?

A: Yes. Real-Time VAT collection and periodic VAT returns are two different activities, and both are required.

18. Which institutions must integrate with the RTVAT framework (Sentinal)?

- Banks
- Payment Service Providers (PSPs)
- Electronic Money Issuers (EMIs)
- Third-Party Payment Providers (TPPs)

- Other regulated or licensed entities processing qualifying transactions are also required to integrate.

19. Who collects and remits the VAT?

The regulated entities listed above shall collect the VAT and remit same to GRA.

20. Is integration mandatory for Entities?

Yes. Integration is mandatory for regulated entities processing qualifying cross-border digital service transactions.
